

Student Comments;

Workshops in Mexico, Carmel/Big Sur & Italy have ALL been particularly enjoyable because John and Krystyna plan well and have a broad familiarity with many regions/languages. There has been enough flexibility for interesting adventures. Krystyna's enthusiastic/encouraging teaching style accommodates any level of expertise.

Krystyna Robbins is an outstanding art instructor from whom I have thoroughly enjoyed participating in many of her workshops. I always come away from these workshops extremely inspired by the new knowledge I have gained and applied in my paintings. She is very patient, supportive, and a wonderful instructor of students of all levels and interests in her painting classes. She is a very talented, award winning artist with so much to share in a very relaxed atmosphere!

Marji Sharp

Mesilla, New Mexico

"I highly recommend Krystyna's painting workshop. She is a very enthusiastic and talented teacher who covers all aspects of painting--color, line, value, shading. While I am not as advanced as the other participants, I felt right at home because she demonstrates the various techniques first and then we are allowed to complete the same with her one-on-one critique following."

Elvira Conteras

Krystyna has inspired all of us the past four days...she shares information that will help us...such as the latest colors that she has discovered and are perfect for a special painting... Workshops are designed to work with each student as much as time permits....and help solve problems in their painting.

At the end of the first day we each had a painting that we could take home and with some touches at home, hang it on our wall.
